Behavioral & Social Sciences Research in Health

A FREE webinar from the ASA Committee on Funded Research

Elizabeth Ginexi, National Institutes of Health

April 26, 2019, 12:00 p.m. - 1:00 p.m., EDT
Recording, Slides
Twitter Hashtag: #ASAwebinar

Elizabeth Ginexi

The Office of Behavioral and Social Sciences Research (OBSSR) supports behavioral and social sciences research at the National Institutes of Health (NIH) by coordinating and/or participating in funding opportunity announcements and providing co-funding to NIH institutes and centers that support this research. As outlined in the OBSSR Strategic Plan, 2017–2021, methods, measures, and data infrastructures are key scientific priorities for the office. This webinar will describe the scientific priorities of the OBSSR Strategic Plan with a particular focus on the second scientific priority: enhance and promote the research infrastructure, methods, and measures needed to support a more cumulative and integrated approach to behavioral and social sciences research.

Other webinars and more information about resources for graduate students and funding opportunities in general are available at *www.amstat.org/ASA/Your-Career/External-Funding-Sources.aspx*.

Elizabeth Ginexi is a health scientist administrator at the National Institutes of Health Office of Behavioral and Social Sciences Research, where she focuses on the application of innovative research methodologies, measurement, and analytic approaches to advance behavioral and social sciences research. Ginexi is an applied social psychologist with expertise in family- and community-based etiology, prevention, and treatment research; policy interventions to target population-level health behavior; quantitative analysis; and statistical and computational modeling.
