

Photos of Fellows

Photos of new Fellows are published in the awards program that is given to each attendee at JSM. Due to tight production schedules, new Fellows have approximately seven days from the time of notification to submit a photo to the ASA. *We recommend all nominees have a digital photo prepared in the event they are selected as a new Fellow.* The photo should be head to shoulders, and the file must be a .tiff, .eps, or .jpg with a minimum resolution of 300 dpi. Please keep in mind that dark, solid backgrounds such as blank walls are best suited for the awards program photos.
