Gender	\$15/M
Member Type	\$20/M
Publication	\$20/M
SCF	\$15/M
Section	\$20/M
State	\$15/M
ZIP Code	\$15/M

## About

Founded in 1839, the American Statistical Association (ASA) is the second oldest continuously operating professional society in the United States. The objectives of the American Statistical Association are to promote the practice and profession of statistics, envisioning a world that relies on data and statistical thinking to drive discovery and inform decisions.

The ASA advances research and promotes sound statistical practice to inform public policy and improve human welfare. Statistics is a continually evolving field, and the ASA strives to be the professional home for all those who learn from data – The Big Tent for Statistics and Data Science.

The influence of ASA members is highlighted by the fact that statistical applications are essential in practically every industry and domain. Their expertise in diverse and vital areas make ASA members receptive to offers for educational developments, government policies, social and environmental issues, technological advancements, career services, analytic research, business and economic forecasting, scientific applications and so much more.
