Joint Statistical Meetings

ASA meetings provide a place for professionals to come together, learn, and network. JSM is our largest meeting, with about 6,000 attending.

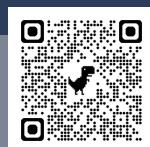

Census at School

This free international classroom project engages students in grades 4-12 in statistical problem solving using their own real data.

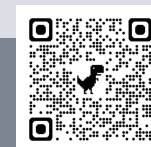

JobWeb

Job seekers come here to look for employment in the statistics and data science fields. Employers post as many positions as they need for as long as they need.

Membership

ASA membership connects you to a community of statisticians serving in industry, government, and academia throughout the world.

Your Career

The ASA's career center offers information about accreditation, awards, professional development, funding sources, ethical guidelines, and salary.
